

FURTHER MATHEMATICS

GCE Advanced Level

Grade thresholds taken for Syllabus 9231 (Further Mathematics) in the October/November 2011 examination.

	maximum mark available	minimum mark required for grade:		
		A	B	E
Component 11	100	81	70	41
Component 12	100	81	70	41
Component 13	100	80	69	41
Component 21	100	79	66	35
Component 22	100	79	66	35
Component 23	100	79	66	35

The thresholds (minimum marks) for Grades C and D are normally set by dividing the mark range between the B and the E thresholds into three. For example, if the difference between the B and the E threshold is 24 marks, the C threshold is set 8 marks below the B threshold and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, then the threshold is normally rounded down.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **200**.

For this syllabus in this series the grade thresholds were as follows:

Option	Combination of components	A*	A	B	C	D	E
AX AY	11, 21 12, 22	184	160	136	116	96	76
AZ	13, 23	183	159	135	115	95	76

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
